

93 lithium battery

What is Eaton 93li lithium battery?

Eaton's 93Li lithium battery solution uses safe lithium iron phosphate battery modules which has also received CE marking and UL certification. With 93Li manufactured and pre-assembled in house, this provides a higher level of system integrity and customers are able to save on transport and installation costs.

What is Eaton 93 Li?

93Li is Eaton's new high-efficiency lithium battery solution for data center applications. Compatible with all Eaton UPS products, 93Li's BMS is able to integrate communication with the UPS. Eaton's 93Li lithium battery solution uses safe lithium iron phosphate battery modules which has also received CE marking and UL certification.

Are Eaton batteries compatible with 93pm & 9395 ups?

Contact us for backup times and configurations. Eaton's lithium-ion battery systems are compatible with the 93PM UPS and 9395 UPS family. *Specifications subject to change without notice. **Dimensions include the conduit box on the base structure. ***To maintain 12-year performance guarantee. Note: Seismic brackets are an optional accessory.

What is Eaton 93pm ups?

The Eaton 93PM UPS combines unprecedented efficiency and reliability with an eye-catching design. A space-saving, scalable and flexible device that's as easy to deploy as it is to manage, it's the perfect three-phase white or grey space solution for today's data center. Lowest TCO (Total Cost of Ownership)

Does Eaton use lithium phosphate batteries?

Uses lithium iron phosphate batteries, for the highest level of thermal stability and safety. Eaton strictly controls production processes and testing, secondary screening and secondary quality checks to ensure high product quality and internal consistency. Note: 1. Only dry contact communication is supported for third-party UPS.

Does Eaton 93pm ups have multiple battery accessory cabinets?

With Eaton's 93PM UPS, multiple battery accessory cabinets are available to provide flexible solutions. The IBC-S cabinet offers a multi-string approach to providing the right runtime for customers' needs. With a narrow footprint at only 19.7" wide, the cabinet can be configured for 1, 2 or 3 strings to add runtime.
