

# Abkhazia Autonomous Republic Energy Storage Power Station Tender Announcement

Why did Abkhazia lose electricity?

Georgia's Russian-occupied region of Abkhazia lost all electricity supply due to the shutdown of the only power station supplying energy to the region, Russian state news agency TASS reported on Dec. 11, citing an Abkhaz energy company.

Is Abkhazia facing a 'humanitarian catastrophe'?

The leader of Abkhazia, a breakaway Georgian region backed by Russia, warned on Saturday that the republic was facing a 'humanitarian catastrophe' due to a critical shortage of electricity.

Why is Abkhazia facing energy shortages?

The region has recently faced energy shortages aggravated by a growing spat with its Russian patrons. Moscow has cut almost all funding, including money crucial for the energy sector, after Abkhazia's local council voted against a controversial investment agreement with Russia.

Why did Russia occupy Abkhazia & South Ossetia?

The full-blown energy crisis came even though the Abkhaz authorities appealed to Russia for assistance on Dec. 6. Russia has occupied Abkhazia and South Ossetia after a war with Tbilisi in 2008, backing local breakaway leadership. Both regions are internationally recognized as Georgia's sovereign soil.

Why did the Enguri hydroelectric power station stop working?

The Enguri hydroelectric power station, partially located in Abkhazia, stopped working on Dec. 11 due to critically low water levels in a nearby reservoir. The region has recently faced energy shortages aggravated by a growing spat with its Russian patrons.
