Traditional Battery Packaging: A Limitation. Earlier designs often relied on simple but bulky materials for packaging, such as metal casing. The aim was to contain the chemicals safely but not necessarily efficiently. Over time, as the demand for smaller and more efficient batteries grew--think about the progression from chunky mobile phones to sleek ...

Lithium ion batteries are known for high efficiency, low maintenance, longer battery life and reduced CO2 emissions. From the operators' side, this means no need of watering the batteries and no risk for gassing (two factors for ...
