Get up-to-speed with our battery raw material prices, news, trends and forecasts. The price of lithium is falling, but some Western companies have recently announced more investments in the Lithium Triangle - a region of South America comprising parts of Argentina, Chile and Bolivia.

What is the aluminium price trend in Asia?

Asia The aluminium price trend was observed to be constantly fluctuating throughout the second half of the year 2023. In the Asian region, the Chinese market was relatively more stable and positively inclined than the Indian market.

Why did aluminium prices fall in 2022?

Aluminium Price Trend for the Second Half of 2022 Asia With the dollar strengthening and the interest rates hike by the central bank the feeling of economic recession dominated the market's sentiments and as a result, the bulk commodities plunged.

Why did aluminium prices rise in Q2'24?

Asia In the early phase of Q2'24, the aluminium prices in China were driven by the surge in raw material prices and limited supply of the commodity in the region due to a constrained influx of overseas imports and the slow recovery of the market post-holiday season.

Why did aluminum prices drop in the last quarter?

In the last quarter, the aluminum market in North America saw price changes and weak demand. At first, decreasing stocks caused a short increase in prices. Nevertheless, prices decreased once more in the final part of the quarter. Global trade was affected by limitations in the Panama Canal and assaults by Houthi rebels in the Red Sea.

What were the aluminium prices on LME in January 2022?

Aluminium prices on LME were 3300 USD/MT in January 2022. Aluminium Price Trend For the Fourth Quarter of 2021 Asia China had begun to reduce its Aluminium production in 2021 and instead chose to import large volumes which not only created a global shortage of the metal but also increased the prices for the commodity.
