

Battery aluminum powder price trend

What's going on with battery raw material prices?

Get up-to-speed with our battery raw material prices, news, trends and forecasts. The price of lithium is falling, but some Western companies have recently announced more investments in the Lithium Triangle - a region of South America comprising parts of Argentina, Chile and Bolivia.

What happened to aluminum prices in China in 2023?

During the second half of 2023, the aluminum market in China experienced a consistent increase. The average monthly prices rose by approximately the same amount from July to December, suggesting an overall positive pattern with slight ups and downs. The aluminum prices in China hit 2,646 USD/MT in December 2023.

Why did aluminum prices drop in the last quarter?

In the last quarter, the aluminum market in North America saw price changes and weak demand. At first, decreasing stocks caused a short increase in prices. Nevertheless, prices decreased once more in the final part of the quarter. Global trade was affected by limitations in the Panama Canal and assaults by Houthi rebels in the Red Sea.

Fastmarkets' battery raw materials products give market participants and investors the transparency and clarity to make critical and strategic business decisions. Trade on market-reflective prices Validate your price, supply and demand forecasts for 1-2 years in the future Access critical long-term forecasts for the next 10-15 years

Why are aluminum prices rising in the Middle East & Africa?

The aluminum pricing trends in the Middle East and Africa are increasingly impacted by infrastructural developments and investments in the construction and transportation sectors. The region's political climate and its effect on operational stability and security are also crucial in determining price trends.

Why did aluminum prices drop in the second half of 2023?

During the second half of 2023, there was significant fluctuation in the European aluminum market. In the third quarter, prices dropped because there was a lot of inventory, but they increased in the following months as demand increased. As the year moved towards its final quarter, the market quieted down.
