

Buenos Aires lithium battery companies

Who makes lithium batteries in Buenos Aires?

Buenos Aires -- Last week, Argentina's President Alberto Fernández visited the first Argentine lithium cells and batteries manufacturing plant belonging to Y-TEC, a company that is part of state-owned energy giant YPF, and which will produce its first pilot models of lithium batteries in December, after taking delivery of components in October.

How many people can a lithium battery power Buenos Aires?

The plant will generate 15 megawatts per year, which means it will produce lithium batteries capable of powering 2500 households. The batteries are envisaged for use in rural areas. For example, there is already a Buenos Aires province-backed project to supply the Paulino-Berisso island, home to 70 families who are currently off the power grid.

How many companies are involved in a lithium project in Argentina?

These are some of the findings from a report prepared by the consulting firm Aleph Energy, led by Daniel Dreizzen, which analyzes the global lithium market while delving into Argentina in greater detail. These are the 41 companies of various characteristics that participate in the country's 64 projects.

Does Y-TEC sell lithium in Argentina?

In the case of lithium, Y-TEC signed a contract with American company Livent, which extracts the mineral in Catamarca and, for the first time, sold part of its production in Argentina. According to Salvarezza, for industrialization to grow in scale, part of the production ought to be sold on the local market.

Is Arcadium lithium still produced in Argentina?

Arcadium Lithium, the firm that resulted from the merger between Livent and Allkem, two of the three companies that were already producing lithium in Argentina, accounts for 13% of global production. Output has quadrupled in the last ten years, but is still attributable to only a few countries and projects. Another Argentine Unicorn on the Horizon?

Will Argentina buy lithium from US company Livent?

Argentina will buy locally-produced lithium from US company Livent Corp to produce cells and batteries in a new plant set to start operating in September. Argentina will buy locally-produced lithium from US company Livent Corp to produce cells and batteries in a new plant set to start operating in September, the country's Mining Secretariat said.
