

Canberra Energy Storage Charging Station Sales

How many EV charging stations are there in Canberra?

The government plans to install 77 charging stations across the region by 2023. Of these, 31 will be located in Canberra, where demand is highest. As part of the ACT Zero Emission Vehicle strategy, the aim is to expand the charging network to 180 public stations by 2025. This reduces charging times and helps tackle range anxiety among EV drivers.

How much does a smart charger cost in Canberra?

In partnership with Evie Networks, ActewAGL has created the Evie charging network, which currently has 13 charging bays across Canberra. For just \$44.95 a month you can have a smart charger at home at no extra charge and receive 24/7 support. The cost will be added to your monthly ActewAGL energy bill.

Who launched the first electric vehicle charging station in Canberra?
