

Cook Islands battery pack

Do I need a voltage converter in Cook Islands?

If the standard voltage in your country is in the range of 100-120 volts, you need a voltage converter in Cook Islands. (In the US, electricity comes out of the wall socket at 110 volts, alternating at 60 cycles per second.) If the frequency in Cook Islands (50 Hz) differs from the one in your country, it is not advised to use your appliances.

Can you use electric appliances in Cook Islands?

Solomon Islands, Tahiti, Tibet, Tonga, Tuvalu, Uruguay, Vanuatu. You can use your electric appliances in Cook Islands, if the standard voltage in your country is in between 220 - 240 volts. Manufacturers take these small deviations into account.

What type of plug does Cook Islands use?

For Cook Islands, there is one associated plug type: type I. Cook Islands operates on a 240V supply voltage and 50Hz. In Cook Islands the power sockets used are of type I. Use the photo below to help identify the right plug and socket. Plug adapters are the interfaces between the American flat-pronged plug and Cook Islands' three flat-prong socket.
