

Croatia's new energy battery policy

How much does Croatia pay for renewable power plants & batteries?

The Government of Croatia has prepared EUR 60 million in subsidies for businesses to install renewable power plants and batteries. Subsidies for energy storage facilities linked with new production capacities are increasingly becoming a standard in European countries. The latest example comes from Croatia.

How much ie-energy aid will Croatia get?

The European Commission has approved EUR 19.8 million (US\$ 20.1 million) in state aid from the government of Croatia to energy storage operator IE-Energy for a series of grid-connected projects. The aid will be a direct grant to IE-Energy and will cover approximately 30% of capital expenditures for a series of grid-scale battery energy storage systems.

Does Croatia need a solar energy strategy?

Croatia has one of the lowest photovoltaic capacity per inhabitant in Europe (15.6 Wp in 2020). The country will need strong support from local and international partners to develop its solar power sector and to decarbonize the economy. Croatia's energy strategy in the foreseeable future

How much money does Croatia need to install solar power in 2022?

The Croatian government has allocated EUR 60 million (\$65.6 million) in subsidies for businesses to install 80 MW of renewables and 20 MWh of batteries. Croatia may only install 2.5 MW of PV in 2022.

How much does a project cost in Croatia?

The Croatian Ministry of Economy and Sustainable Development said the goal is for companies to produce energy for self-consumption, which should bring down energy costs. Companies can secure between EUR 100,000 and EUR 2 million per project. Developers can apply for multiple projects, with the maximum amount per single applicant capped at EUR 4 million.

How many MW of PV will Croatia install in 2022?

Croatia may only install 2.5 MW of PV in 2022. The Croatian government is providing EUR 60 million for companies in the processing industry and heating sector to install front-of-the-meter and behind-the-meter PV arrays, biomass projects, biogas-fired power plants, and battery storage installations.

Chinese battery manufacturer Camel Group Co. and Croatian supercar maker Rimac Automobili have agreed a joint venture to set up a CNY 1 billion (USD 158.7 million) factory in Xiangyang, China's central Hubei province, capable of producing 300,000 new energy vehicle motors per year.

Croatia's Renewable Energy Sources Association announced that Croatia grew its installed solar plant capacity from 224 MW to 305.8 MW in the first six months of 2023 alone. According to U.S. consulting firm BCG, Croatia has significant untapped potential for solar energy usage with one of the highest levels of solar

The European Commission has allocated EUR19.8 million in the form of state aid for a number of projects for grid-scale energy storage. The subsidy was awarded to the company IE-Energy from Rijeka. This amount will ...

IE-Energy is based in Rijeka and was founded in 2020 with, in its own words, a mission to create a new type of flexible and decentralised energy power provider, or aggregator, in the electricity market. It also wants to allow small and medium power producers (prosumers) and consumers to participate directly in energy markets.

The money will go towards grid-scale batteries to help transmission system operators balance the grid. The European Commission has approved EUR19.8 million (US\$20.1 million) in state aid from the government of ...

Energy storage: Croatia's first large-scale battery storage system in Sibenik, which is subsidized by EU funds and the biggest of its kind in southeast Europe, has obtained all necessary ...

The Government of Croatia is preparing EUR 500 million for the installation of batteries for storing renewable energy. Minister of Economy and Sustainable Development Damir Habijan said Croatia is ready for changes in the energy sector.

The Government of Croatia has prepared EUR 60 million in subsidies for businesses to install renewable power plants and batteries. Subsidies for energy storage ...

Croatia s new energy battery policy

Croatia will provide some EUR500 million (US\$534 million) in subsidies for battery energy storage system (BESS) technology, a government minister has said. Minister of Economy and Sustainable Development Damir Habijan revealed the funding, part of a larger EUR1.6 billion for energy projects, at the JANAF conference in Zagreb earlier this month ...

In a significant stride towards energy modernisation, Croatia is setting aside EUR 500 million for the development of large-scale energy storage systems. The announcement was made by Damir Habijan, Croatia's Minister of Economy and Sustainable Development, at the seventh international energy conference hosted by Jadranski Naftovod (JANAF ...
