Are homegrown charging piles for new energy vehicles a big deal?

[XIE SHANGGUO/FOR CHINA DAILY]Global interest in homegrown charging piles for new energy vehicles has ballooned as China cements its leading position in the global NEV market with exports set to almost double this year, experts and industry executives said.

What is the coverage rate of charging piles in Shenzhen?

In Shenzhen, the coverage rate of charging piles is close to 90 percent. Expanding the NEV charging infrastructure to the corners of the vast countryside is also a great accomplishment. As of this October, all the 1,123 townships in Guangdong have been equipped with charging pile facilities.

How many charging piles are there in China?

*China's Guangdong Province has installed 340,000 charging piles for new energy vehicles (NEVs), a demonstration of the country's commitment to boosting green development. *The cumulative number of charging infrastructure facilities nationwide reached about 4.49 million, up 101.9 percent year on year.

What's behind the boom in charging piles in China?

Behind the boom in charging piles in China is the country's burgeoning NEV industry, which excels in both production and marketing. Data from the China Association of Automobile Manufacturers show that from January to September this year, nearly 4.72 million NEVs were produced and 4.57 million were sold in China.

Can charging piles be installed at the same time?

"We have launched a service that allows customers to apply for the installation of charging piles the moment they order a new car," said an official with the power supply department of Guangzhou's Nansha District, adding that the delivery of vehicles and the installation of charging piles could be completed simultaneously.

How many charging piles have been installed in Guangdong?

by Xinhua writers Zhou Qiang, Ye Ting, Sun Fei, Meng Yingru GUANGZHOU, Oct. 30 (Xinhua) -- A whopping 340,000 charging piles for new energy vehicles (NEVs) have been installed in south China's Guangdong Province, reflecting the country's commitment to boosting green development.
