

# Factory direct sales of low voltage capacitors

Find your low-voltage capacitor easily amongst the 25 products from the leading brands (CIRCUTOR, WEG, Iskra, ...) on DirectIndustry, the industry specialist for your professional purchases.

472J polyester film capacitor CL11 50V factory direct sales. The 472J polyester film capacitor CL11 has good self-healing properties, high withstand voltage and long life. Widely used in household appliances such as wireless chargers, home appliances, and lighting. 472J polyester film capacitor CL11 50V factory direct sales. Item Characteristics; Reference standard: ...

Looking for low voltage capacitor factory direct sale? You can buy factory price low voltage ...

High voltage ceramic capacitor 271K 400VAC is aimed at high frequency, the high-voltage ceramic capacitor depends on the occasion, and its typical function can eliminate high-frequency interference. High voltage ceramic chip safety Y capacitor 271K 400VAC factory direct sales

Power Factor Correction Capacitors are suitable for low-voltage power systems with a frequency of 50Hz or 60Hz. They are primarily used to improve power factor, reduce reactive power loss, enhance grid quality, and maximize transformer capacity, among other benefits.

Our Low Voltage Capacitors facilitate superior power quality over low voltage networks allowing seamless industrial and commercial operations. Explore Range Reliable, affordable, accessible

Description high voltage film capacitor CBB81 1250V272J factory direct sales. high voltage film capacitor has low loss, high insulation, suitable for large current. The capacity and loss have high stability with temperature and frequency.

Looking for low voltage capacitor factory direct sale? You can buy factory price low voltage capacitor from a great list of reliable China low voltage capacitor manufacturers, suppliers, traders or plants verified by a third-party inspector. Source with confidence.

Description 123J high voltage polypropylene film capacitor CBB81 factory direct sales. 123J high voltage polypropylene film capacitor CBB81 have better stability and high reliability. They are generally used in high-frequency and pulsed high-current occasions such as lamps, monitoring equipment, and power supplies.

Rated Voltage(AC): 275VAC/310VAC; Lead Pitch:15.0mm,10.0mm; Color: yellow; Special Service: Cut Feet, Bend Feet ; Warranty: Unconditional replenishment; Category: X Capacitor Tags: Safety capacitor, Safety capacitor X2, X capacitor. Description Description x2 safety capacitor 224k factory direct sales. X2

safety capacitor 224k, metallized polypropylene film ...

The solution is to use local power factor compensation to provide the required rective power from power capacitors directly to the appliance to avoid undesired load of the mains network. Systems with higher harmonics content may be sensitive to create resonant circuit between power capacitors and inductance of a transformer and may cause damage ...

Description CBB22 metallized film capacitor 274J 630V. CBB22 metallized film capacitor 274J 630V high insulation resistance has low high frequency loss, high reliability, good self-healing, small internal temperature rise, and internal string structure. Suitable for various types of energy-saving lamps and electronic ballasts.

The company is committed to the research and development, production and sales of metallized film capacitors and high voltage capacitors for microwave ovens. Over the years, Mascotop has been recognized by customers all over the world for its competitive advantages such as technology research and development close to the market, first-class ...

Description Iran best-selling electrolytic capacitor 10uf160v factory direct sales. Iran best-selling electrolytic capacitor 10uf160v, low ESR, large ripple current capability, operating frequency 100KHZ, load life of 105 degrees guaranteed 3000 hours. Usually used as a power filter for smart home appliances.

The company is committed to the research and development, production and sales of metallized film capacitors and high voltage capacitors for microwave ovens. Over the years, Mascotop has been recognized by customers all over the world for its competitive advantages such as ...

The X2 type capacitor for suppressing electromagnetic interference of power supply should be suitable for occasions that will not cause electric shock when the capacitor fails, such as the power supply is connected across the line, and can withstand 2.5kV pulse voltage.
