

Guali Solar Energy Installation Company

Why did Engie start a solar project in Southeast Asia?

Seed-funded and incubated by ENGIE, one of the world's largest renewable energy companies, we had one goal in mind. To simplify the process of getting rooftop solar in order to hyperscale the adoption of solar across Southeast Asia.

Who is Bluesun solar?

Bluesun Solar Co., Ltd was founded in 2013, is one of the solar power solution leading companies in China, with an office area of 3000 square meters and a peripheral warehouse area of 2000 square meters, focuses on the research and development, production and sales of lithium battery and energy storage systems.

Why should I choose a local solar installer?

SolarReviews data, from tens of thousands of reviews of solar companies, shows that local, family-owned solar companies record far higher levels of client satisfaction. This is why we recommend going with a company that's local to your area rather than a nationwide installer. How can I find solar installers near me?

Why is distributed solar photovoltaics a good solution for Southeast Asia?

To simplify the process of getting rooftop solar in order to hyperscale the adoption of solar across Southeast Asia. Distributed solar photovoltaics is ranked as one of the top 10 solutions by Project Drawdown, out of close to 100 solutions identified to reverse climate change.
