

# Havana Industrial Energy Storage Equipment Manufacturer Ranking

What are the top 5 energy storage cell manufacturers?

The top five largest energy storage cell manufacturers in the first half are CATL, EVE Energy, REPT, Hithium, and BYD. CATL secured the top position with orders from major customers like Tesla and Fluence. EVE Energy received orders from all big customers, sustaining second place in the industry.

Which energy storage projects shipped the most in 2023?

As for small-scale energy storage projects, CATL, REPT, EVE Energy, BYD, and Great Power shipped the most. The top 5 list remained unchanged in the first three quarters of 2023.

Why is Panasonic a leading energy storage company?

Thanks to a wide and varied portfolio of solutions, Panasonic has positioned itself as one of the leaders in the energy storage vicinity. Panasonic is one of the industry's top names due to its advances in innovative battery technology alongside strategic partnerships and extensive experience in manufacturing high-quality products.

Which energy companies have the most GWh shipments?

BYD and EVE Energy followed closely each with shipments of over 25 GWh, while REPT BATTERO and Hithium each ranked fourth and fifth with shipments of over 15 GWh. Despite intense price competition, the leading companies demonstrated significant cost control advantages, reinforcing the "the strong get stronger" pattern.

In this week's Top 10, Energy Digital takes a deep dive into energy storage and profile the world's leading companies in this space who are leading the charge towards a more sustainable energy future.

Explore Energy Storage Systems (ESS), critical factors in choosing manufacturers, and top brands in the industry for a resilient energy future.

EESA Chairman, Du Xiaotian, delivered a comprehensive summary of the global and Chinese energy storage industry's developments in 2023, unveiling shipment data and rankings across various segments of the ...
