

How long is the warranty for Chinese solar panels

How long does a solar panel warranty last?

The length of a product warranty varies based on the manufacturer and model. Traditionally, these warranties typically last 10-15 years, although it is becoming more common for premium panels to have 20 and 25 year product warranties. If a panel fails within the warranty period, the manufacturer will typically replace or refund the panel.

What makes a good solar panel performance warranty?

An ideal solar panel performance warranty should include the following conditions: Certain solar manufacturers may even guarantee a degradation rate as low as 0.25% per year, coupled with a performance warranty period of up to 30 years.

Why do solar panels have warranties?

Warranties serve as a testament to the quality of a product. Companies typically offer superior warranties for products of higher quality. While solar panel failures are exceedingly rare due to their design to endure for decades and withstand harsh weather conditions, occasional errors may still occur.

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?

What does a solar installation warranty cover?

While manufacturer warranties primarily cover issues related to the solar panels themselves, such as material defects, workmanship defects, and loss of power output, the solar installation warranty extends additional protection to the entire photovoltaic system.

How long do solar panels last?

High-quality panels experience approximately 2% to 3% productivity loss in the first year, followed by less than 0.50% degradation annually thereafter. Consequently, top-tier solar panels can maintain at least 85% of their initial electricity output over 25 years. An ideal solar panel performance warranty should include the following conditions:

There are 3 solar panel models, offering 12 year product warranty and a 25 year performance warranty, guaranteeing 80% of the nominal output at the end of the 25 th year. With zero deposit finance, be ready to pay a hefty premium.

A solar panel product warranty should last at least ten years. When you shop around, you'll notice that some
