Will huasun build a photovoltaic production hub in Italy?

Bee Solar aims to set up a photovoltaic production hub in Italy utilising Huasun's technology and know-how. The construction of the site is expected to start by March 2025. Meanwhile, Huasun is interested in strengthening its position in the European market through cooperation with Bee Solar, the ministry said.

How will huasun & bee solar work together in Italy?

"This partnership fully responds to the goal that our countries intend to achieve in the field of green technologies," Italy's Industry Minister Adolfo Urso said in a statement. Bee Solar aims to set up a photovoltaic production hub in Italy utilising Huasun's technology and know-how. The construction of the site is expected to start by March 2025.

Why is Italy partnering with China?

To mitigate the risk, the Italian government has backed initiatives by domestic solar component producers and is brokering alliances with Chinese manufacturers. "This partnership fully responds to the goal that our countries intend to achieve in the field of green technologies," Italy's Industry Minister Adolfo Urso said in a statement.

Why do Chinese solar panels dominate Europe?

Chinese solar components dominate the market in Europe due to their affordability, fuelling fears that the continent could be over-reliant on Beijing's products and technologies to meet its decarbonisation goals.

Is China partnering with bee solar & huasun?

Our Standards: The Thomson Reuters Trust Principles. Milan-based Bee Solar and China's Huasun have signed a cooperation agreement in the photovoltaic sector, Italy's industry ministry said on Friday, adding that the deal was part of a broader alliance with the Chinese industry ministry.

Shenzhen Begonia Electronics Co., Ltd: Welcome to wholesale bulk portable power station, solar generator, battery power station, 200w solar generator, solar generator 3000w for sale here from professional manufacturers and suppliers in China. Our factory offers high quality products with competitive price. Also, customized service is available.

The Italian utility, a world-class leader in renewable energy generation, is expanding its solar panel gigafactory in the underdeveloped Southern island to turn it into Europe's largest - and the bloc's most powerful resource to counter Chinese PV tech.

FuturaSun is reported to have established a total of 1.2 GW production capacity in Taizhou, a city not far from Shanghai. Italian solar module manufacturer FuturaSun has acquired 55,000 m² industrial area in China's Suzhou city to build a new Gigafactory and a Research and Deve ...

Italian solar power supply factory China

China's Mingyang to set up Italian factory and supply 18.8MW turbines for floating project. Deal with Renexia follows recent visit from Italian developer's chief and Italy's economic development minister to Mingyang in China . A Mingyang manufacturing base in China. Photo: Mingyang.
