

Kingston lithium battery wholesaler address

Why is Kingston a good place to buy lithium-ion batteries?

Kingston's proximity to the automobile makers in southern Ontario and other industrial production sites means it can easily tap a supply of lithium-ion batteries and manufacturing scrap for recycling. Li-Cycle's "spoke" facilities process battery material to produce "black mass," which contains valuable materials like lithium, cobalt and nickel.

Does Kingston have a lithium-ion battery recycling facility?

KINGSTON - A lithium-ion battery recycling company is setting up a new facility in the city's west end. This advertisement has not loaded yet, but your article continues below.

Does Li-Cycle Recycle lithium ion batteries?

This advertisement has not loaded yet, but your article continues below. Li-Cycle, which already has a facility in the city that recycles about 5,000 tonnes of lithium-ion battery material per year, is to set up the new centre of excellence at the Clogg's Road business park on Creekford Road.

Why should one invest in Li-Cycle in Kingston?

The Kingston Centre of Excellence by Li-Cycle is a testament to the opportunity and talent available in the region that makes it a great investment for Li-Cycle as a global leader in clean technology.

Where is Li-cycle putting a new battery recycling facility?

This advertisement has not loaded yet, but your article continues below. Battery recycling company Li-Cycle is to set up a new facility at the Clogg's Road business park in Kingston, Ont. on Thursday, March 3, 2022.
