How many electric vehicles were sold in Laos in 2023?

In 2023, Laos saw a notable surge in the sales of electric vehicles (EVs), with a total of 4,631 EVs sold, comprising 2,592 automobiles and 2,039 motorbikes.

Should Laos adopt EVs in 2022?

In the context of fuel shortage and increases in fuel prices, as well as the overdependence on imported fuel, which accounts for 20% of Laos' total import value and account for about 45% of external public debt in 2022, the Lao government has been strongly encouraged the adoption of EV.

Are EVs legal in Laos?

In 2022, Laos removed the import limit for EVs, as long as EVs met international quality, safety, maintenance, and waste management standards. EVs are also subjected to a 30 percent reduction in the annual road tax compared to their petrol counterparts with equivalent engine power.

Does Xanh SM offer electric taxi service in Laos?

In November 2023, Vietnam-based taxi company, Green and Smart Mobiliy JSC, officially launched its electric taxi service in Laos under the brand Xanh SM with 150 Vinfast electric cars. Enhance your business impact in Southeast Asia: Become a member of the US-ASEAN Business Council and tap into a network of possibilities.

How has Laos facilitated EV adoption?

Leveraging its huge potential for electricity generation from renewable energy, Laos' government has been proactively facilitating EV adoption by both loosening regulations and improving infrastructure. In 2022, Laos removed the import limit for EVs, as long as EVs met international quality, safety, maintenance, and waste management standards.

Imports In 2022, Laos imported \$2.11M in Batteries, becoming the 141st largest importer of Batteries in the world. At the same year, Batteries was the 344th most imported product in Laos. Laos imports Batteries primarily from: Thailand (\$1.1M), Vietnam (\$900k), China (\$73.1k), Indonesia (\$32.5k), and New Zealand (\$3k).
