

Latvia 8m solar street light pole

What is Luxtra street light poles?

Luxtra Street Light Poles is often preferred in urban centers, roads, streets, parks and commercial areas with its high quality, durable construction. Every brand street lighting fixture can be installed seamlessly, intelligent lighting system can be integrated. It is suitable for use with LED lighting.

What is the spacing between solar street lights?

For light poles over 10m in height, the general formula is the spacing between lights = pole height \times 3. Additionally, for solar street lights with an 8m pole, the spacing between lights should be 25-30m using cross illumination. This method is suitable for roads that are 10-15m wide.

How far apart should street light poles be arranged?

For general road lighting, when the width of the road does not exceed 15m, lighting is usually arranged on one side. distance between two street light pole on this side also depends on the height of the light poles; for poles shorter than 6m, the spacing can be set at about 10m, while for poles taller than 6m, the spacing can be between 10-25m.

How wide should solar street lights be?

This method is suitable for roads that are 10-15m wide. For solar street lights with a 12m pole, the longitudinal spacing between lights should be 30-50m with symmetric illumination, and road illumination width needs to exceed 15m.

How to determine the installation height of solar street lights?

In determining the installation height of solar street lights, if the height of the lamp poles is between 3 to 4m, the formula $H \geq 0.5R$ can be used. Here, R is the radius of the illumination area, and H is the height of the street light pole.

How high can Luxman street lights be installed?

At present, there are three styles of optional height: 6m, 8m and 10m. Luxman has different kinds of street lights that can be installed at a height of 3~30m, suitable for high-speed, airport, urban streets, rural areas, parks, squares, parking lots, construction sites and other occasions.
