What is a lithium-ion battery charging Safety Cabinet?

Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge and store lithium batteries safely. Made with a proprietary 9-layer ChargeGuard(TM) system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. [Shop Now](#)

What is a lithium ion battery charging and storage cabinet?

The new Justrite lithium ion battery charging and storage cabinet provides the ideal storage solution. Featuring ChargeGuard(TM) technology, this new cabinet was designed especially for minimizing the risks of battery fires and thermal runaway that arise when storing and charging lithium ion batteries in the workplace.

Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What are the safety guidelines when charging and storing lithium-ion batteries?

To minimize these risks, it is important to follow safety guidelines when charging and storing lithium-ion batteries. This includes using the appropriate charger, avoiding overcharging or undercharging, storing batteries in a cool and dry place away from flammable materials, and disposing of damaged or old batteries properly.

How many batteries can a batteryguard cabinet hold?

Whether you have a great many batteries or just a few, large or small, the Batteryguard cabinet offers a solution for every situation. We offer compact models that charge 2 to 10 batteries and a spacious double-door safe where you can store up to 20 batteries.

How does the batteryguard cabinet work?

The Batteryguard cabinet is also safe and easy to use for new personnel. It's simple: when you need to charge up your battery, you just open the cabinet and place the battery on the charger. Because the charger cables are fixed in the cabinet, you can be sure that you are always using an original charger for the battery.

The 8 Station Lithium-ion Battery Charging and Storage cabinet has 8 power sockets for you to plug in 8 lithium-ion battery chargers, that's four batteries per compartment. Each compartment is insulated completely, all around like in a kiln, with 1260 degree C continuous rated HotWall insulation. We are aware that exploding batteries light up ...
