

Ministry of Industry and Information Technology New Energy Battery Certificate

What will China's new lithium-ion battery regulation mean for the battery industry?

China's industrial regulator plans to launch a major document to guide the production capacity of lithium-ion batteries, which industry experts said will knock out a batch of low-end battery cells and accelerate the structural adjustment of the country's booming lithium-ion battery sector.

What's new in China's Lithium-ion battery industry?

BEIJING, June 19 -- China's Ministry of Industry and Information Technology on Wednesday unveiled revised guidelines for the lithium-ion battery industry to further strengthen standardized management and promote the high-quality development of the sector.

What happens after the new energy vehicle power battery is decommissioned?

After the new energy vehicle power battery is decommissioned, it still has 70-80% of the remaining capacity, which can be downgraded for energy storage, power reserve and other scenarios to maximize the utilization of residual energy.

What is CCC certification for lithium ion batteries & battery packs?

Lithium-ion batteries and battery packs for portable electronic products; test standard: GB31241-2022. (CCC certification for lithium-ion batteries and battery packs for other electronic and electrical products will be carried out once the conditions are met).

Should lithium-ion battery companies invest in technology?

Instead, lithium-ion battery companies will be encouraged to strengthen technological innovation, improve quality and reduce production costs. They are required to spend at least 3 percent of the revenue on R&D and technological upgrades, the draft guideline said.

What will China's Lithium-ion battery production capacity be in 2025?

The China Automotive Power Battery Industry Innovation Alliance predicted that by 2025, the country's lithium-ion battery production capacity will likely exceed 3,000 GWh. However, the capacity utilization rate of the country's lithium-ion battery industry dropped to about 40 percent last year and is likely to reach 35 percent by 2025.

On December 15, 2023, the Ministry of Industry and Information Technology (MIIT) issued a solicitation for opinions on the "Administrative Measures for the Comprehensive Utilization of ...

China's Ministry of Industry and Information Technology on Friday announced plans to formulate new standards for the global auto industry, focusing on new energy vehicles ...

Ministry of Industry and Information Technology New Energy Battery Certificate

China will introduce measures to strengthen the management of the recycling of batteries for new-energy vehicles (NEVs), the Ministry of Industry and Information Technology said on Sept 16.

From June 1, 2024, the technical requirements in the Announcement on the Exemption of Vehicle Acquisition Tax for New Energy Vehicles (Announcement No. 172 [2017] ...

The Ministry of Industry and Information Technology unveiled a draft guideline on Wednesday that will guide lithium-ion battery companies to reduce projects that aim solely to expand production capacity. Instead, lithium ...

On March 19, the Ministry of Industry and Information Technology issued the key points of Automobile Standardization in 2022, which mentioned that it would start the ...

China's Ministry of Industry and Information Technology on Friday announced plans to formulate new standards for the global auto industry, focusing on new energy vehicles (NEVs) and intelligent connected vehicles. App. HOME; NEWS; INSTITUTIONS; POLICIES; ARCHIVE; ??. HOME. NEWS. INSTITUTIONS. POLICIES. ARCHIVE. ??. China eyes ...

(CCC certification for lithium-ion batteries and battery packs for other electronic and electrical products will be carried out once the conditions are met). MII/NAL On March 01, 2023, China's Ministry of Industry and Information Technology (MIIT) has announced plans to reform the network access license (NAL) system.

Since the end of 2019, the Ministry of Industry and Information Technology has organized industry forces to carry out special research to start the drafting of the management policy on the ...

Ministry of industry and advanced technology conducted the practice of e consultation and e-decision making within the principles of modern government administration in a manner that introduces new ideas related to improving and ...

The Ministry of Energy and Infrastructure recently made a change to the names of Maritime Transport Services. Updating housing assistance data. Show More . Sustainable global leadership in energy, water, infrastructure, housing and transportation. Notice. The name of the Vehicle Operating Cards service has changed to the National Transportation Vehicle Permits ...

On March 19, the Ministry of Industry and Information Technology issued the key points of Automobile Standardization in 2022, which mentioned that it would start the revision of safety standards related to power batteries of electric vehicles to further improve the level of thermal runaway alarm and safety protection of power batteries; speed ...

Ministry of Industry and Information Technology New Energy Battery Certificate

The Ministry of Industry and Information Technology unveiled a draft guideline on Wednesday that will guide lithium-ion battery companies to reduce projects that aim solely to expand production ...

China's Ministry of Industry and Information Technology on Friday announced plans to formulate new standards for the global auto industry, focusing on new energy vehicles (NEVs) and intelligent connected vehicles.

The Ministry of Industry and Information Technology (MIIT) released the direction of industrial development of new energy storage batteries (lithium-ion batteries / hydrogen storage / fuel cells) and other

From June 1, 2024, the technical requirements in the Announcement on the Exemption of Vehicle Acquisition Tax for New Energy Vehicles (Announcement No. 172 [2017] of the Ministry of Finance, the State Administration of Taxation, the Ministry of Industry and Information Technology, and the Ministry of Science and Technology) and the ...
