

New Delhi Battery Energy Storage Station

Will India's first battery energy storage system be regulated in 2024?

New Delhi | 08 May 2024 -- In a significant step forward for India's energy transition, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy Storage System (BESS) project.

Why is India launching a battery energy storage system?

India has approved its first commercial standalone Battery Energy Storage System (BESS) project, marking a milestone in the country's progress towards clean and renewable energy.

Will BRPL's kilokari substation be India's first commercial battery energy storage system?

BRPL's Kilokari substation in Delhi will go down as the first to host a commercial scale BESS in India. In a significant step, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy Storage System (BESS) project.

Is BSES launching a battery energy storage system in India?

Power distribution company BSES, which supplies electricity to nearly two-third of Delhi through its two subsidiaries, has started working on India's first utility-scale standalone Battery Energy Storage System (BESS), which is said to be the largest in south Asia.

Where is Tata Power-DDL battery energy storage system located?

Battery energy storage system is located at Tata Power-DDL's sub-station in Rohini, New Delhi. BESS was set up to add system flexibility, grid stabilisation, better peak load management, enhance reliability and protect critical facilities for 1.8 million consumers served by the company. It has a 10MW/10MWh capacity.

Can you get continuous electricity supply in New Delhi?

NEW DELHI: In the time to come, you may get continuous electricity supply even if there is a technical fault in the power transmission or distribution system or the grid develops a snag.

Set to be built in a record time. Green hydrogen revolution: Jakson Green to launch urban refuelling station in New Delhi. Badarpur, Battery Energy Storage System (BESS), CO2 offset, crude oil, digital technology, ...
