Solar backup generators provide a portable solar power supply. Instead of having a permanent solar installation in your home, complete with roof panels and a large battery bank, a solar generator packages everything in one relatively small unit.

How portable a solar panel is depends in large part on its physical size. 400W portable solar panels are a lot harder to lug around than 100W portable solar panels, and they won't fit as easily in your car or on a garage shelf. Even given that, I was surprised at how much variability there is in features such as handles, cable storage, and latching mechanisms. I ...
