

Not for sale battery replacement price table

How much does a car battery replacement cost?

In addition, if you have a mechanic install the battery for you instead of doing the work yourself, you'll pay around \$30 in labor. The table below shows a quick price comparison of car battery replacement cost estimates from reputable suppliers:

How much does a battery cost in 2024?

The \$111/kWh is a global average, too. For instance, in early 2024, LFP cells made by CATL and BYD were seen as low as \$56/kWh. While the cell price is cheaper than the pack price, and although US prices tend to be 10-12% higher, the news out of China offers a promising glimpse of the battery future.

How much does a refurbished battery cost?

Like with the Model 3 above, the same third parties offer refurbished batteries for less than new (or refurbished) packs from Tesla. At re/cell, prices start at \$115/kWh and go up to \$135/kWh for performance and longer range. Greentec offers refurbished packs from \$118/kWh to \$145/kWh.

How much does it cost to replace a Tesla battery?

Based on data we've seen for more recent, accident-related replacements, the total amount has come down to \$10 - \$12,000, with 80-90% of that going for the battery itself. In 2020, Current Automotive posted the receipt of one customer's replacement of a remanufactured 75kWh battery in a Tesla Model 3:

How much does a Nissan Leaf battery cost?

According to a post in the MyNissanLeaf.com forum, as of Jan 30, 2020, the cost of labor and replacement of a 24 kWh battery in a Nissan Leaf is \$5,500. It appears the battery itself would cost \$4,500, placing the \$/kWh at \$187/kWh, which is 36% above the quoted 2020 \$137/kWh price.

How much does a long range battery replacement cost?

More recently, a Reddit reader added that a Long Range battery replacement (75 kWh) cost them around \$13,000- including labor - in 2023. Another reader gave a similar quote. That still works out to \$173/kWh. However, third party retailers, such as Greentec Auto, offer refurbished OEM packs for \$9,000, which works out to \$120/kWh.

In summary, the total cost to replace a car battery generally falls between \$100 and \$200. Prices vary based on battery type, labor rates, and regional differences. If you're considering battery replacement, exploring options for DIY installation and checking local promotions or warranties can provide potential savings.
