

# RV Custom Battery Price

How much does an RV battery cost?

With a wide variety of RV batteries to choose from, their prices range just as wide. The cheapest RV battery on the market is the Apex Group UI RV battery that costs \$48.25, and the most expensive battery being a Lifeline GPL-8DA deep cycle RV battery for \$699.88. All RV batteries have the same purpose, but not all are equally created.

What are RV batteries?

RV batteries are essentially any batteries that are compatible with the electrical systems of an RV and able to meet the needs of the recreational vehicle's owner. RV batteries are often called "house batteries". All RV batteries are "deep cycle" batteries, capable of being drawn down to nearly nothing before being fully charged again.

How to choose an RV battery?

A large solar panel can charge up your power station quickly. Your first step in picking an RV battery should be whether you need a conventional house battery or a standalone power station. House batteries look like the battery in your car, and get installed into a dedicated compartment in your vehicle.
