

Ranking of the top three new energy battery brands

Who makes the most EV battery?

The top three battery makers (CATL, BYD, LG) collectively account for two-thirds (66%) of total battery deployment. Once a leader in the EV battery business, Panasonic now holds the fourth position with an 8% market share, down from 9% last year.

Who makes the best battery?

This was driven by demand from its own models and growth in third-party deals, including providing batteries for the made-in-Germany Tesla Model Y, Toyota bZ3, Changan UNI-V, Venucia V-Online, as well as several Haval and FAW models. The top three battery makers (CATL, BYD, LG) collectively account for two-thirds (66%) of total battery deployment.

Which EV battery manufacturer has the largest market share?

According to SME Research, CATL is the world's largest EV battery manufacturer, with 37.7% of the market share. Plus, it is the only battery supplier with a market share of over 30%. CATL has 6 R&D facilities, five in China and one in Germany. In 2023, they spent about \$2.59 billion in R&D, an 18.35% increase from the previous year.

Where are the world's largest EV battery manufacturers in 2023?

Asia dominates this ranking of the world's largest EV battery manufacturers in 2023. See which battery makers feature in the top 10.

Who is the largest battery manufacturer in the world?

The Chinese company BYD ranked second with a market share of 15.8 percent, followed by South Korean LG Energy Solution with a market share of 13.6 percent. CATL (Contemporary Amperex Technology Co. Limited) was the largest battery manufacturer, having overtaken its main Chinese, South Korean, and Japanese competitors.

Who is leading the electric vehicle battery market in 2023?

In February 2023, the company's dominant position in the electric vehicle (EV) battery market was cemented by a report from SNE Research--a South Korean firm, which highlighted Contemporary Amperex Technology Limited's (CATL's) growth to 191.6 GWh produced in 2022. CATL has reigned supreme for a number of years with a market share of 34% in 2022.

Most batteries have a one to three-year warranty with a 60-day risk-free guarantee from the brand. How we chose these car battery brands Ronan Glon/Digital Trends / Digital Trends
