

San Jose lithium energy storage power supply custom manufacturer phone number

Who is Lithium Power?

Lithium Power, Inc. has been the industry leader in lithium battery technology for nearly two decades. We offer turn-key lithium battery pack solutions for OEMs/ODMs that meet each company's unique requirements of cost, performance, reliability, and safety.

What is lithium technology?

Lithium technology has rapidly grown in use over the last decade in consumer electronic products such as laptops, tablets, mobile phones, and vehicles. The technology is gaining popularity in the rechargeable product market due to its light weight, efficient capacity and reliability.

What does Lithium Power do?

Lithium Power now seeks to expand its successful business model of custom made Smart Battery solutions to serve more industries within the OEM/ODM business world by offering the proprietary BMS solution alone in addition to custom made lithium battery packs.

How does Lithium Power's Smart BMS work?

Lithium Power's unique Smart BMS allows batteries to charge and discharge in parallel. This unique technology utilizes a modular design to increase capacity, adding additional modules without requiring increased voltage. Effective, cell-balancing power use controlled automatically by our Smart BMS

What is Lithium Power Lighting (LPL)?

Lithium Power Lighting (LPL) solutions provide reliable, portable, high-brightness outdoor lighting for mission-critical applications like night time road repair, accident sites or construction projects. It also works well for evening or overnight recreational activities.

We're tracking Anthro Energy, Sylvatex and more Lithium Ion Battery companies in California from the F6S community. Lithium Ion Battery forms part of the Energy industry, which is the 16th most popular industry and market group.
