The bulk of the work in setting up In App Purchases in your Capacitor app comes in registering your products and consumables for iOS and Android, and then setting up the proper flow to register and consume those items in your app. This is a fairly complicated process, and we recommend the following guides as next steps:
In App Purchase Plugin Guide

in the USA where there are dedicated services for each thing. You have Craigslist in the US, with a few clicks I just found a home, a car and a job in New Jersey (US here I come !).. Websites with general purpose are not at all an European specificity, I think Craigslist was the first to propose this kind of service and European websites are just copy/pasting what was done in the US.
