How do I install a solar PV system?

The first step in installing a solar PV system is meeting with a qualified solar installer. During this initial consultation, the solar company will: - Assess your energy needs : By reviewing your electricity bills and understanding your consumption patterns, the installer can recommend the right size and capacity of the solar system.

How does a solar panel installation work?

Mounting the panels: The installers will begin by securing mounting brackets to your roof or the ground (if it's a ground-mounted system). The panels will then be securely attached to these mounts. - Electrical wiring : After the panels are mounted, the electrical wiring will be connected to the inverter and electrical panel in your home.

Where should solar panels be placed?

At risk of stating the obvious, the orientation and position that you place your panels is really important. You want them to be on the South, South-West, or South-East roof of your house. Inverter and Batteries

How do I connect my solar panels?

The solar panels come supplied with male and female MC4 connectors, so that they can be easily connected to each other. But you obviously need to add a male and female MC4 to the DC extension cables at each of the string. For this, you need a crimping tool. I bought this one from Amazon...

How to connect solar panels to inverter?

The cables were at each end of the string, so that panels 1 and 7 go back to the inverter location. The solar panels come supplied with male and female MC4 connectors, so that they can be easily connected to each other. But you obviously need to add a male and female MC4 to the DC extension cables at each of the string.

How long does it take to install solar panels?

The process typically takes between 1 to 3 days depending on the complexity and size of your system. Here's what happens: - Mounting the panels : The installers will begin by securing mounting brackets to your roof or the ground (if it's a ground-mounted system). The panels will then be securely attached to these mounts.
